COMMERCIAL BANK OF DUBAI

For the period ended 30 September 2023

1. Introduction

Commercial Bank of Dubai PSC (“the Bank”) was incorporated in Dubai, United Arab Emirates (U.A.E.) in 1969 and is registered as a Public Joint Shareholding Company (PJSC) in accordance with Federal Law No. 32 of 2021. The Bank is listed on the Dubai Financial Market. The Bank’s principal activity is commercial and retail banking. The registered address of the Bank is CBD Head Office, Al Ittihad Street, P.O. Box 2668, Dubai, United Arab Emirates.

2. Purpose and basis of preparation

The Central Bank of the UAE (“CBUAE”) supervises the Bank and its subsidiaries (together referred as the “Group”) on a consolidated basis, and therefore receives information on the capital adequacy of, and sets capital requirements for, the Group as a whole. The capital requirements are computed at Group level using the Basel III framework of the Basel Committee on Banking Supervision (“Basel Committee”), after applying the amendments advised by the CBUAE within national discretion. The Basel framework is structured around three pillars as follows:

- Pillar I prescribes the minimum capital requirements;
- Pillar II addresses the associated supervisory review process; and
- Pillar III specifies further public disclosure requirements in respect of the Group’s capital and risk profile.

The disclosures have been prepared in line with the disclosure templates introduced by the CBUAE guidelines on disclosure requirements (CBUAE/BSD/N/2020/4980, CBUAE/BSD/N/2021/5508 and CBUAE/BSD/2022/5280) published in November 2020, November 2021 and December 2022 respectively.

The Pillar III report of the Group for the period ended 30 September 2023 comprises detailed information on the underlying drivers of risk-weighted assets (RWA), capital of the Bank, its wholly owned subsidiaries and the Group’s interest in an associate. The report should be read in conjunction with the Group’s reviewed Financial Statements as at 30 September 2023. The direct subsidiaries and associate of the Group are as follows:

3. Overview of Pillar III

Pillar III complements the minimum capital requirements and the supervisory review process. Its aim is to encourage market discipline by developing disclosure requirements which allow market participants to access specified information on the scope of application of Basel III, capital, particular risk exposures and risk assessment processes, and hence the capital adequacy of the institution. Disclosures comprises of quantitative and qualitative information and are provided at the consolidated level.

The CBUAE issued Basel III capital regulations, which came into effect from February 1st, 2017 introducing minimum capital requirements at three levels, namely Common Equity Tier 1 (“CET1”), Tier 1 and Total Capital. Additional capital buffers (Capital Conservation Buffer and Countercyclical Capital Buffer – maximum up to 2.5% for each buffer) introduced are over and above the minimum CET1 requirement of 7%.

In November 2020, CBUAE issued revised standards and guidelines for Capital Adequacy in UAE. The new version to the Standards includes additional Guidance on the topics of Credit Risk, Market Risk and Operational Risk. Following are the changes in the revised standards which have been adopted:

- The Tier Capital Supply Standard
- Tier Capital Instruments Standard
- Pillar II Standard: Internal Capital Adequacy Assessment Procedures (ICAAP)
- Credit Risk, Market Risk and Operational Risk
- Equity Investments in Funds, Securitization, Counterparty Credit Risk and Leverage Ratio
- Credit Value Adjustment (CVA) for Pillar I and III

CBUAE requires the Pillar 2 - Supervisory Review Process to focus on each bank’s Internal Capital Adequacy Assessment Process (ICAAP) in addition to Pillar 1 Capital calculations. The ICAAP should include a risk based forward looking view of, but not limited to, Credit, Market and Operational Risk Capital.

The purpose of Pillar III – Market Discipline is to complement the minimum Capital requirements (Pillar I) and the supervisory review process (Pillar II). The revised Pillar III disclosures, based on the common framework, are an effective means of informing the market about the risks faced by the Bank, and provide a consistent and understandable disclosure framework that enhances transparency and improve comparability and consistency.

In compliance with the CBUAE Basel III standards and guidelines, these disclosures include qualitative and quantitative information of the Group’s risk management objectives and policies, risk assessment process, capital management and capital adequacy. The Group’s Pillar III disclosures are governed by the disclosure policy framework in line with CBUAE Basel III standards.

3.1 Policy and verification

The Bank has operated within a framework of internal controls and procedures for accessing the appropriateness of Pillar III market disclosure for period ended 30 September 2023.

These Pillar III disclosures have been subject to review from internal auditors and appropriate senior management within the Group and attested by the Board Executive Committee.

We confirm that the Bank’s Pillar III disclosures, to the best of our knowledge, comply with the revised CBUAE Pillar III market disclosures requirements and have been prepared in compliance with the Bank’s internal control framework.

3.2 Implementation of Basel III standards and guidelines

The Group has adopted the standardized approach for Credit Risk, Counterparty Credit Risk, Credit Valuation Adjustment (CVA) and Market Risk, mandate-based approach (MBA) for equity investments in funds held in the banking book and the basic indicator approach for Operational Risk (Pillar I) for regulatory reporting purposes.

The Group also assigns capital on other than Pillar I risk categories, for example ‘Interest rate risk in the banking book’ and for ‘Concentration risk’, within the Pillar II framework.

4. Highlights

In line with Article 2.2. of Capital Adequacy Regulation, CBUAE requires banks to apply the following minimum requirement:

1. CET1 must be at least 7% of risk weighted assets (RWA);
2. Tier 1 Capital must be at least 8.5% of RWA;
3. Total Capital, calculated as the sum of Tier 1 Capital and Tier 2 Capital, must be at least 10.5% of RWA.
4. In addition to the minimum CET1 capital of 7% of RWA, banks must maintain a capital conservation buffer (CCB) and Countercyclical Capital Buffer (CCyB), each a maximum of 2.5% of RWAs in the form of CET1 capitals.
5. All banks must maintain a leverage ratio of at least 3.0%.

The Group has complied with all the externally imposed capital requirements and is well capitalized with low leverage and high levels of loss-absorbing capacity. As at 30 September 2023:

- The Group’s Common Equity Tier 1 (CET1) ratio of 13.34% (31 December 2022: 12.40%), Tier 1 capital Ratio of 15.65% (31 December 2022: 14.90%), Capital Adequacy Ratio of 16.80% (31 December 2022: 16.04%), are all above the regulatory requirements.
- The Group’s leverage ratio of 10.65% (31 December 2022: 10.18%) is above the current regulatory requirement.
- The Group continues to manage its balance sheet proactively, with focus on sound RWA management.

During Q1 2020, the CBUAE issued a regulation for a 'Prudential Filter' that permits Banks to add back increase in IFRS 9 stage 1 and stage 2 provisions to the regulatory capital over a transition period of 5 years on proportionate basis. The increase in IFRS 9 provision requirements is determined by calculating the difference between the IFRS 9 provision as at December 31, 2019 and the IFRS 9 provision as of the respective reporting date. The proportion of the increase in IFRS 9 provisions that is permitted to be added-back to regulatory capital from 1 January 2020 onwards will be phased out over a 5-year transition period as follows:

Years	2020	2021	2022	2023	2024
Proportion of Provision	100%	100%	75%	50%	25%
