PAYMENTS, CASH MANAGEMENT AND TRADE PRODUCTS APPLICATION BRIEF

iBusiness is CBD's state-of-the-art Corporate online banking platform where Corporates can access the complete suite of PCM and Trade Products and perform a wide range of transactions securely and efficiently.

Administration, Security and Accessibility Corporate Administrators can create own users and manage access control

- System availability 24x7
- Flexible authorisation workflows ensures transactions are approved according to account mandate
- Two-factor authentication ensures only the approved persons are able to access and transact.

Payments and Other Services

Corporates can process all payment types including local and international payments, WPS, non-WPS payroll, bill payments, and others

- · Options for single and bulk upload
- Access all other PCM services such as iCollect, iPrint, iDirect, Liquidity, Receivables and many others
- · Support multiple file formats

Trade Finance Module

CBD's online banking platform offers access to Corporates with comprehensive trade finance products & services with enhanced security features. The platform gives a greater financial control with 24/7 real-time transaction data and the ability to perform day-to-day trade transactions viz. Letters of Credit, Bank Guarantees, Loans, Islamic Trade instruments etc., instantly.

iCollect - CBD's remote cheque scanning solution which allows Corporates to scan and deposit their cheques from their office premises.

iConnect - A secure direct integration between the Corporate's ERP or TMS with CBD's systems to support high transaction volumes, straight through processing and adequate reporting.

iCash - CBD's cash collections, cash delivery and Smart Cash Deposit Machine service.

iDirect allows Corporates to become originators in the UAE Direct Debit System which iDirect enables them to collect payments from their payers via Direct Debit from their accounts...

iPrint - a service which allows Corporates to prepare and authorise bulk cheques online. iPrint and print with digital signatures eliminating manual activities around a cheque.

E-invoicing - A solution that allows exchange of the invoices and other documents between a supplier and a buyer in an integrated electronic format

Loans

Liquidity Management Solutions (LMS) is a suite of services that allows Corporates to streamline cash flows and maximise the utility of surplus funds. The service includes Sweeping, Pooling and Inter-Company

(((())))

Receivables Management Solutions (RMS) is a service which allows Corporates to

is a service which allows Corporates to streamline the reconciliation of their receivables through automated Invoice Reconciliation and Virtual Accounts
