iConnect

## iConnect API Banking and Host-to-Host Solution

iConnect provides a direct integration between the Corporate's ERP and CBD's systems through Web API or SFTP. iConnect supports large volume transactions and data traffic enabling centralized finance and treasury departments, shared service centers, payments factories and in-house banks to achieve high levels of efficiency.

- Seamless inter-operability with iBusiness
- Support for multiple files and payment types
- Straight-through processing
- Integration through Web API or SFTP
